Invitation

Polymers offer enormous opportunities towards newer applications in technologically important areas. There is a great necessity to have an integral approach towards this complementary relationship of polymers and their performance. These polymeric materials have shown multidirectional growth in several areas of technological innovations, which ranges from the biopolymers and nanomaterials to the fascinating field of smart materials. The sustainability in the polymer world has given a new dimension to the polymer processing and its applications. A precise understanding of the molecular architecture and its role in governing physical characteristics is extremely useful to understand their applications. The world of polymers is fascinating & innovative and requires a great deal of interaction and discussion among the scientific community. This conference on polymers is proposed to exchange information on new dimensions in such application areas.

Asian Polymer Association (APA) is a professional society dedicated to the science of polymers. APA has organized several conferences at the international forum and has created a highly interacting platform for the polymer scientists. APA is organizing its next International conference (APA-2024) on Polymers for Advanced Technology in Jaipur, Rajasthan, India to address the priorities and to formulate the action plan to face the challenges ahead. The conference would be dedicated to the polymer science and technology with an extensive interaction among academicians, researchers, technologists and policy planners. We have special symposiums on different topics organised by APA Bioforum, APA Nanoforum and APA Sustainability Forum. A special feature of this event is to organize Student Conclave for the benefit for our young generation. On behalf of APA, we would like to invite you to participate in this conference and we look forward to welcoming you in The Pink City, Jaipur.

Conference Chairs

Bhuvanesh Gupta	APA President
VK Soni	GFL, India
Fardim Pedro	EPNOE President

Conference Co-Chairs

Anup Ghosh	IIT Delhi, India
Jyoti Chaudhary	MLSU, Udaipur, India
Philippe Roger	UPS, Orsay, France

Organising Chair

Manohar Badiger	Organising Chairman

Important Deadlines

Submission of Abstracts	15 May'24
Acceptance Intimation	30 May'24
Registration (for Presenters)	30 June'24
Registration (for Others)	31 July'24

Topics

Polymer synthesis & Modification

Functional Polysaccharides

Polymer processing

Biopolymers

Biodegradable Systems

Nanomaterials & Nanocomposites

Polymers in Agriculture

Polymers for Energy Harvesting

Smart Polymers

Polymers for Food Packaging

Biomaterials & Bioengineering

Antimicrobial Materials

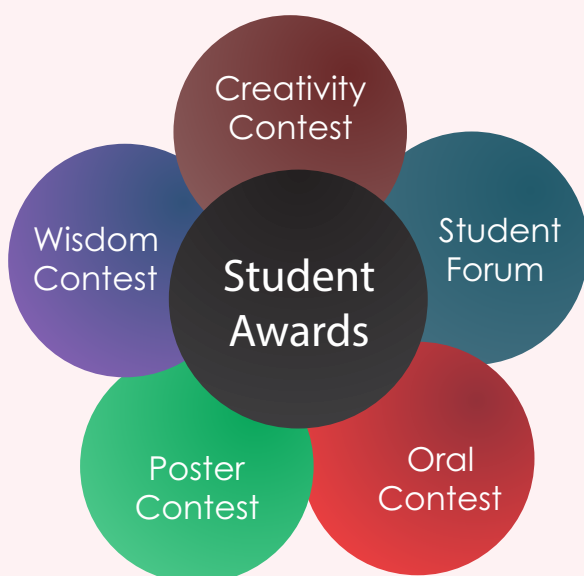

Fibrous Materials

Sustainability & Circular Economy
