APA International Conference on
Polymers for Advanced Technology

13-15 October, 2025

Inder Residency Resort & Spa, Udaipur, Rajasthan, India

www.apaconference.org

Invitation

Polymeric materials are driving innovation across multiple domains-from cutting-edge biopolymers and nanomaterials to the dynamic world of smart and sustainable materials. With a growing focus on eco-friendly solutions, sustainability in polymers is redefining processing techniques and broadening their scope of applications. A deep understanding of molecular architecture and its influence on material behavior is essential to unlock their full potential.

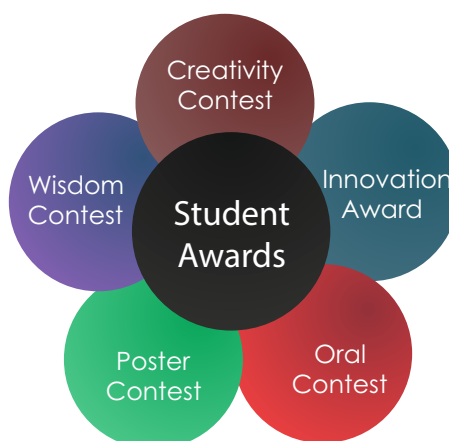

The Asian Polymer Association (APA), a leading professional body promoting polymer science and technology, has consistently created global platforms for researchers and industry experts. Building on this legacy, APA is proud to announce its prestigious International Conference on Polymers for Advanced Technology (APA-2025), in collaboration with Mohanlal Sukhadia University, Udaipur. This landmark event will bring together leading academicians, scientists, technologists, and policymakers to explore emerging challenges and collaborative solutions in the polymer landscape. Key highlights include specialized symposiums hosted by APA Bioforum, APA Nanoforum, and APA Sustainability Forum, along with a Student Conclave designed to inspire and empower the next generation of polymer innovators. We cordially invite you to be a part of this transformative conference in the stunning city of Udaipur - the "City of Lakes" and the "Venice of the East." Join us in shaping the future of polymer science and technology.

Topics

Polymer Synthesis
Nanomaterials & Nanocomposites
Smart Polymers
Polymers for Food Packaging
Biomaterials & Bioengineering
Biotechnology & Microbiology
Fibrous Materials
Herbal Bioengineering
Pharmaceutics & Medicinal Chemistry
Photo & Electrochemistry
Polymers for Energy Harvesting
Tyre & Rubber Technology
Energy Materials
Green Chemistry & Sustainability

Call for Abstracts

Papers are invited in the form of oral and poster presentations. All those desirous of participating and/or presenting a paper in the conference are requested to complete the online abstract submission.

Authors are requested to send one-page abstract in the prescribed format. Abstracts for Oral and Poster presentations should be in Times Roman with A4 format. The title should be in bold with font size of 14, followed by authors name(s) in the next line, and affiliation in the subsequent line(s) as central alignment (Font Arial, size 12). This should follow the Email ID of the presenting author (in italics). The presenting author should be underlined. The text should follow as single space with font size of 10. References, in italics may be cited at the bottom of the abstract.

Poster Session

The poster session is proposed to highlight the activities in various areas of polymer science. Best poster awards will be presented to students participating in the poster session. A committee comprising of eminent scientists will make its decision on the best posters presented in the conference.
